

ASSESSMENTS

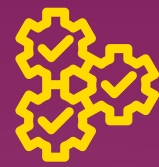

Simplify Your Assessment Workflows

Whether you're mapping data, evaluating vendor risks, or conducting DPIAs, assessments are essential—but they don't have to be exhausting. Responsum's Assessments module streamlines your entire process with **smart automations**, **seamless collaboration**, and a **customizable builder tailored to your needs**.

From predefined templates like DPIA, TIA, and LIA to fully custom intake forms, you'll collect the right information at the right time—without the back-and-forth. Built to cut down manual work, foster cross-departmental collaboration, and keep everything audit-ready, our Assessments help privacy teams focus on what really matters: managing risk and ensuring compliance.

WHY RESPNSUM'S ASSESSMENTS STAND OUT...

Ditch the spreadsheets and generic survey tools. Responsum's Assessments are designed for compliance professionals, with embedded logic, data reuse, and advanced reporting. Business users get a friendly interface—compliance teams get complete control and visibility. With features like public links, guest access, and automated reassessments, scaling your workflows has never been easier.

FRICTIONLESS BUSINESS INTEGRATION

Simplify collaboration with business stakeholders by using public links & guest access. No login required—just one click, & they can fill out only what's relevant. Responsum translates their input into structured data.

CUSTOM FORMS & LOGIC BUILDER

Build assessments that fit your organization—whether for privacy, security, or general intake. Apply dynamic logic to show or hide questions based on input, reuse existing platform data, & avoid repetitive work.

ALWAYS AUDIT-READY

Assessments link directly to your core compliance ecosystem, supporting periodic reviews with auto-updates, & generating export-ready reports, so you're all set when regulators come knocking.
